## Purpose of the ICF Search Map

This map enables families, county boards, and other interested parties to search for intermediate care facilities (ICFs) located within a user-defined distance from a particular zip code. Users can see the locations on a map and download a list of contact information for the identified buildings.

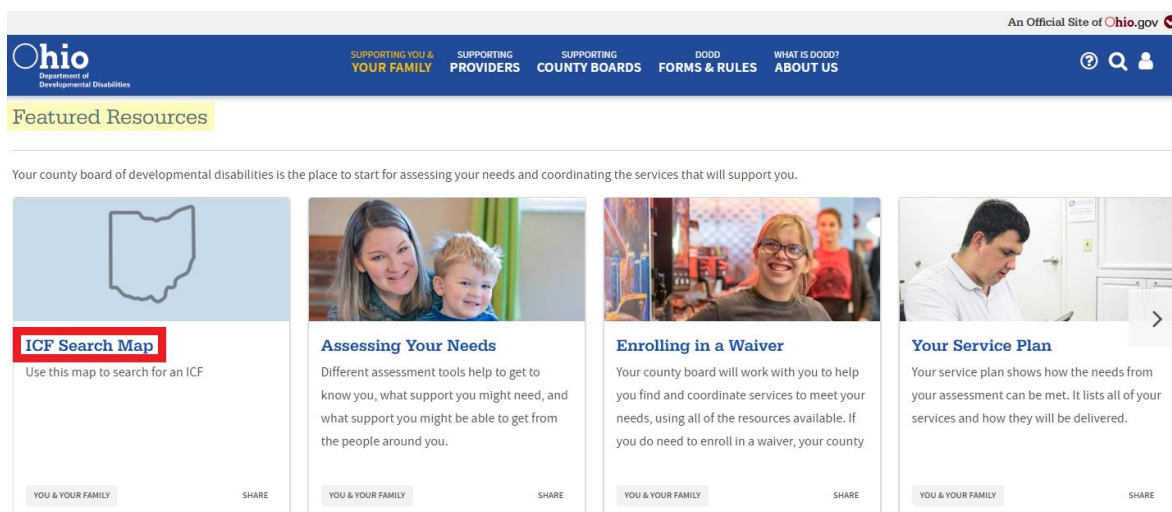

## Navigating to the ICF Search Map

You can access the ICF Search Map on the main DODD website ([dodd.ohio.gov](http://dodd.ohio.gov)).

Click on **Supporting You & Your Family**

Scroll Down to **Featured Resources** and click on **ICF Search Map**

You can also access the map by entering "ICF Map" in the DODD search box or by [clicking this link](#).

## Using the ICF Search Map

With this map, you can see what ICFs are within a certain distance from your home zip code. First, you type in your **home zip code** and press Enter.

### ICF Search Map

October 04, 2019 | DODD

#### Intermediate Care Facility Search

When you type your home zip code below, it is highlighted in orange on the map. Once you fill in maximum miles away, the map will zoom to show you the ICFs within that range. A list of those ICFs will display on the right.

Below, a list will display showing ICFs close to your zip code you enter.

1. Type in your home zip code and press Enter:
2. Type in the maximum number of miles away to search for an ICF and press Enter:  
 Be sure to enter a number of miles to populate the list on the right.

Detroit

Second, you type in a **number of miles**. That number is the maximum number of miles away you want the ICF to be from your home zip code. This step is very important, as it will generate the list of ICFs for you to print. If the number stays set at 275, the map will not zoom in to your zip code and will instead show the whole state.

1. Type in your home zip code and press Enter:

2. Type in the maximum number of miles away to search for an ICF and press Enter:

Be sure to enter a number of miles to populate the list on the right.

Once you type in the zip code and number of miles, the map will zoom in and show you the ICFs in that area.

For example, below you can see the zip code 44691, and a distance of 20 miles is entered. The map zoomed in to that area, and the house icons indicate an ICF location. The list on the right has more detailed information about each ICF. This includes the facility phone number, email address, mailing address, and the maximum number of residents. That list is printable using the download function.

## Downloading a PDF List of ICFs

You can download a PDF list with details about the ICFs that came up on your map search. Once downloaded, it can be easily emailed or printed and shared with others.

To generate that PDF, click on the **download** button at the bottom right of the web page.

Once you click download, the screen below will pop up with the options. Click on **PDF** for the most printer-friendly version.

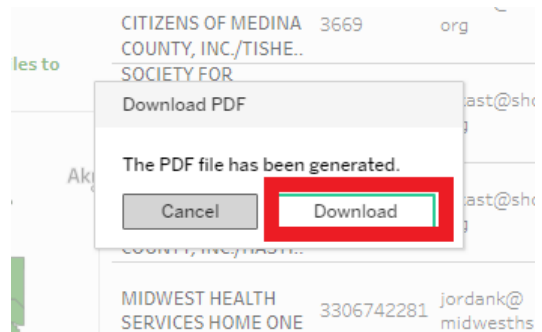

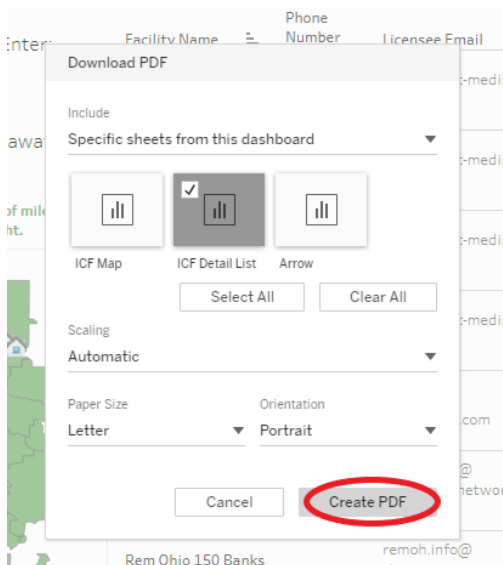

Once you click on PDF, you will see another screen with options. Click on the drop-down circled in yellow and select **specific sheets from this dashboard**.

After selecting specific sheets from this dashboard, you will see options for each section of the dashboard. To get the ICF list, click on **ICF Detail List** .

Once you click the detail list, you can click **Create PDF** and **Download** once it is generated.

The final PDF should look like the example below once you open it in your PDF reader. You can make your list longer or shorter by editing the number of miles box. List lengths will vary depending on the zip code you entered and its location in the state.
