COVID-19 UIR Process

This is just a reminder that per DODD, we are requesting that incident reports get written when we are made aware of individuals we support being exposed to COVID, being tested for COVID, or being quarantined. If you as a provider is involved, please write an incident report and send it to the UIR email (uir@blanchardvalley.org). We are requesting copies of these incident reports so that we can attempt to stay in the loop and be as proactive as possible. If you have questions on whether an incident report needs to be written, please contact Ali Weising-Pike at 419-348-5532.
