

Are you the person I'm looking for?

I am a 20 year old Male who lives in Findlay, OH

I need a provider to help me with:

Calling me to check in at 9a to make sure that I am up and have started my day. I may need another call approximately an hour later to make sure that I am up and moving on my daily routine.

I also would like a provider that is accessible by phone throughout daytime hours (approximately 7a-6p), so that I can call them during the day in case I need assistance with problem solving.

I would like up to 3 hours weekly of HPC to assist with other household and community-based assistance.

Transportation, this will vary based on need. I will need transportation to and from work (I work locally in Findlay). I will need dropped off by 4:30p and picked up by 8:00p three times weekly (right now my schedule is Tuesday, Friday, and Saturday). I will need assistance with transportation twice monthly to Doctor's appointments (this is located in Fremont.) I will also need transportation twice monthly to create Art at Awakening Minds Art studio. Both my appointments and transportation to the Art Studio will be HPC hours, to account for my providers time spent at these places (my doctor's appointment will be approximately 3 hours of HPC and my AMA classes are approximately 1.5 hours).

Some of the things that are important to me are:

Playing games (card, board, and video) with friends, Spending time with family, creative outlets such as writing and art.

Some of the things that are important for me are:

Taking my medications daily at the right time. Getting enough exercise. Not eating mangos or mango flavored food or drink due to my allergy. Getting enough downtime to de-stress. Increasing my independence.

Who?

I am looking for a provider that is kind, and will be upfront and to the point, but keep it simple. I am looking for a provider to encourage my independence and someone that can help me troubleshoot and help me work through solving a problem.

What?

I have an individual budget.

How?

I need visual supervision in the community. I struggle with pedestrian skills and general spatial awareness (not being able to tell how far away a car is from him). Wandering away and unknowingly following the wrong person. Financial exploitation. Emergency response. Choking.

At home I need visual checks every 8 hours, because I do not know how to use the oven, I am at risk of Choking, and I struggle with Emergency response.

When?

I would like a provider to start as soon as possible. This will vary based on need. Calling me to check in at 9a to make sure that I am up and have started my day. I may need another call approximately an hour later to make sure that I am up and moving on my daily routine. I also would like a provider that is accessible by phone throughout daytime hours (approximately 7a-6p), so that I can call them during the day in case I need assistance with problem solving. I will need transportation to and from work, I will need dropped off by 4:30p and picked up by 8:00p three times weekly. I will need assistance with transportation twice monthly to Doctor's appointments (this is located in Fremont.) I will also need transportation twice monthly to create Art at Awakening Minds Art studio. My doctor's appointment will be approximately 3 hours of HPC, and my AMA classes are approximately 1.5 hours.
