

Are you the person I'm looking for?

I am a 5-year-old boy who lives in Findlay, OH

I need a provider to help me with:

Respite/HPC services and transportation. I require hands on assistance with activities of daily living, but I am able to feed myself finger foods.

Some of the things that are important to me are:

Having people use pictures instead of words to communicate with me, having access to my iPad, listening to music, and being able to play outside.

Some of the things that are important for me are:

My medications, monitoring my seizures, supporting me, reminding me to chew and swallow my food instead of pocketing it in my cheeks, and paying attention to my cues when I am trying to tell you something.

Who?

I need someone who is able to administer my oral and topical medications. I also have seizures, and I need someone who preferably has some experience working with individuals who have seizures so they can monitor and provide support as needed.

What?

I am on a Level One Waiver. I would need HPC/respice and transportation.

How?

List supervision levels, type of support needed (hands-on assistance, verbal reminders.) Identify known risks

I require visual supervision at all times, and hands on assistance for all tasks other than mobility and feeding myself finger foods. All other foods must be fed to me. I am at risk of seizures, choking, and I am able to walk but require leg braces. I do sometimes struggle with mobility.

When?

I am looking for someone who can start by August 1, 2022 ideally who would work two 8 hour days per month.

Interested?
